HELEN M. STONE MAY BE DEAD.

A Macedonian Brigand Instructed To Ascertain.

HITCHINTHE NEGOTIATIONS

Consul-Gen. Dickinson and Minister Hakhmeteff Antagonistic to Each Other.

New York, Nov. 4 .- According to the Vienna Politische Correspondenz, quoted by the correspondent of the London Times and the New York Times in the Austrian captital, a well known Macedonian brigand has been instructed to obtain information as to whether Miss Helen M. Stone is still alive. Two other brigands, well acquainted with the country, have been commissioned by United States Consul-Gen, Dickinson to try to get in touch with the missionaries' captors. The prefect of the Sofia police has also sent two mes-sengers. Miss Stone's release is again sengers. Miss Stone's release represented as being imminent.

THINKS MISS STONE IS DEAD. New York, Nov. 4.—The positive conviction that Miss Helen H. Stone is dead is contained in a letter whish has just been received in Boston from Ivan Raduloff, a student who was with the American inissionary when she was captured by brigands in Turkey, together with Mme. Tsilka, says the Bos-ton correspondent of the Press. According to this letter the snow in the mountains into which Miss Stone and her companion were taken by their aptors was three feet deep three weeks ago at the time the letter was written. Even in the summer time the snow upon the highest summits of these mountains does not melt. The first snowfall usually comes at about the middle of September, and by the middle of October, the mountain passes are absolutely closed to travel.

It was the conviction among Miss Stone's friends in Samakov, Bulgaria, three weeks ago, that she could not possibly have survived the rigors of her captivity until that date. There was a hope that Miss Stone might have been concealed by her cantors in the monastery of St. Ivin of Eila, which is near the Bulgarian-Turkish frontier and on the Bulgarian side of it great was the anxiety of the Bulgar-ian government to do every thing in its power to assist the United States' representatives in their effort to find the missionary that they adopted the exceedingly unpopular method of searching the monastery. This search disclosed the fact that Miss Stone had not been there. The discovery was disappointing to Miss Stone's friends in Sampley. in Samakov. According to the letter of Ivan Raduloff. Consul Gen. Dickinson has retarded the release of Miss Stone seriously. It is said that Mr. Dickinson, by his criticism of the Bul-garian government has antagonized

It is understood in Samakov that the brigands who were in immediate charge of the captive were under posifirst indication of the possibility of a skirmish with the troops.

HITCH IN NEGOTIATIONS.

New York, Nov. 4.—The hitch in the negotiations for Miss Stone's release arises from two causes: First, the herce antagonism between United States Diplomatic Agent Dickinson and Physica Missian Release. and Russian Minister Bakhmeteff Second, the missionary and diplomatic disinclination to accede to the brigands' terms, though moderated, says the Samakov correspondent of the Journal and Advertiser. The relations between M. Bakhmeteff and Mr. Dickinson are strained to the breaking point. The former, being friendly to Bulgaria, toos not want his agent to finish the cond, the missionary and diplomatic does not want his agent to finish the Berth, a Macedonian student at the American institute at Samakov, one of the agents sent to negotiate with the brigands, has returned from Raslog. He reports that the brigands consider Mr. Dickinson's money offer as too small. They say that they don't want to agree to terms that would disgrace them with their brethren.

Discussing the amount of ransom Missionary Baird, purser of the Samakov institute, says: 'If the brigands get a quarter of what they still ask, bands will spring up like mushrooms, Samakov itself will furnish many and Bulgaria will be ruined. The brigands began negotiations with us by seeking. began negotiations with us by asking twice Miss Stone's weight in gold. Even the Bulgarians had either trackers or bloodhounds, Miss Stone would not be spending her sixty-first day with the

Sanctions More Literature for Russia New York, Nov. 4.-The Russian ministry of Education, says a dispatch from Odessa to the London Times and the New York Times, sanctions the cir-culation on a wider scale of popular literature in the free libraries. Hitherto a most rigorous censorship has been exercised in St. Petersburg. Now all works approved by the educational consistory of the holy synod are permitted.

Libeled German Troops.

New York, Nov. 4.—A dispatch from erlin to the London Times and New Berlin to the London Times and New York Times quotes an article in the Vossische Zeitung referring to the prosecution of two Stuttgart journal-ists for libeling the German troops in hina. The Vossische Zeitung says: 'There is no question of barbarity in

nnection with the conduct of the com paign. There is no ground for the supsition that the troops of other nations were more humane in their conduct than those of Germany. At the whether it was necessary, as Gen. Lessel thinks, to resort in so many cases to the punishment of binding our men to stakes."

during the next six weeks. There are only about 7,000 mounted men at home, so that the military authorities are faced with the problem of training soldiers minus the necessary accompaniment of a cavalry arm. To meet this obvious falling it is probable that several composite regiments of yeomanry will be voluntarily embodied for home service. A move will soon be made to ADVERTISEMENT.

TESTING KOCH'S THEORY. Dr. Barney of Brooklyn Claims to Have Disproved It.

New York, Nov. 4.-Positive signs of tuberculosis have appeared in the cow that was inoculated with germs by Dr. Geo. D. Barney of Brooklyn several days ago. Dr. Barney will permit the signs to become more pronounced and will then kill the cow and hold an autopsy. Dr. Barney is now certain that he has disproved Dr. Koch's theory that human tuberculosis and bovine tuberculosis are not intercommunicable.

The cow was inoculated by Dr. Barney about ten days ago. On Saturday last it began to show a fever, and now all the known signs of tuberculosis are apparent in the beast. Dr. Barney said last night that he had no doubt that the autopsy to be performed would prove beyond doubt the fallacy of Dr. Koch's theory.

It appears that Gen. Botha, who had been joined by another big commando aggregating a thousand men, attacked Col. Benson's rear guard October 36 on the march and captured two guns, but was unable to keep them. Col. Benson fell mortally wounded early in the fight.

Maj. Wools-Sampson took command, collected the convoy and took up a po-sition for defense about 100 yards from entrenchments prepared by the Boers, The captured guns were so situated that neither side could touch them.

The Boers made desperate efforts to overwhelm the whole British force, charging repeatedly right up to the British lines and being driven back each time with heavy loss. The de-fense was stubbornly and successfully maintained through the whole of the following day and the next night, until Col. Barter, who had marched all night from Bushman's kopje, brought relief on the morning of November 1. The Boers then retired. Their losses estimated at between 300 and 400. Col. Benson did not long survive. Not only did Gen. Botha direct the at-tack, as already cabled, but he personally shared in the fighting.

DISASTER TO THE BRITISH.

London, Nov. 3 .- A special dispatch from South Africa reveals practically nothing further about the disaster to Col. Benson's column. It appears that the first attack was made in a blinding rainstorm. The heaviest casualties occurred while Maj. Wools-Sampson, who is a Johannesburg reformer and an officer in one of the colonial levies, was gathering the convoy under the brow of a hill, a most difficult task. It is assumed in London that the two fifeen-pounders remained in the posses sion of the British, but the telegrams are not clear on this point.

Edgar Wallace, correspondent of the Daily Mail, writing from Pretoria, October 12, again protests against official optimism, and declares that the war will not be ended for another year. He urges the immediate dispatch of large reinforcements of both men and "Even when all that is possible has been done in this direction." he says, "it will be necessary to wait grimly, and not to expect any quick re-

EUROPEAN SUGAR EXPORTS. Reappearance of Cuba as a Com-

Washington, Nov. 3 .- "The obvious and sustained friendliness of the Unit-ed States government to Cuba, the impending increase of sugar production in Porto Rico, Hawaii and the Philip-pines, added to the steady and rapid development of the beet sugar industry throughout a large area of the United States, all point to an inevitable and definite decline in European sugar ex ports to this country.'

This statement appears in an interest-ing report from Consul-Gen. Mason at Berlin to the state department, dated October 14, showing the damage which the sugar production of Cuba, in particular, is dealing to the sugar exporters of Europe.

It is generally recognized, says Mr. Mason, that the beet sugar industry of central Europe is approaching a critical juncture. Germany, Austro-Hun-gary, France and Russia, it is stated. are now gathering a beet crop which will yield an output far exceeding in quantity that of any previous year. Unfortunately for Germany, this overwhelming production comes at a time when industrial depression and a short wheat and rye crop have seriously reduced the purchasing capacity of the poorer classes. A high commercial authority, says Mr. Mason, estimates the decline in sugar consumption in Germany during the fiscal year at 75,-

"To complete and still further darken the shadow," says the consul-general, "Cuba has reappeared as a vigorous and threatening competitor in the United States, which, during past years has taken an average of 283,000 metric tons of German sugar, valued at \$12,-614,000 per annum.

Dr. Paden on Foreign Immigration-Dr. Kirby and Father Keenan.

Dr. Paden exploited the subject of oreign immigration at the First Presbyterian church yesterday, after giving a list of statistics tending to show that 60.9 per cent of the total popula-tion of Utah are either foreign born or born of foreign parents. He also gave figures showing that 12,741 of the popu-lation of Salt Lake are foreign born and 40,790 natives, Dr. Paden was of the opinion that

there was not much to fear from this foreign influx, that the dominant church is not making any relative gains now as a result of the foreign immigration; in other words he thought that a large majority of the foreigners who are coming to Utah are non-Mormons.
